

With Leaking Gas Tank Sole Fliers Set Pace Down at San Jacinto

SAN JACINTO, Calif., July 14—The Russian trans-polar fliers landed here at 6:30 a.m., P.S.T. The intrepid airmen landed after a non-stop flight from Moscow, which broke the world's long-distance flight record. The fliers came down safely in a pasture three miles west of here after 60 hours in the air. The gasoline tank was leaking a stream of fuel when the big monoplane landed at a point 90 miles south and east of Los Angeles.

Modern long distance non-stop flying may be said to have begun with Charles A. Lindbergh's New York-to-Paris hop May 20 and 21, 1927, when a record at 5,600 miles was set. A few days later, on June 4 and 5, Clarence Chamberlin and Charles Levine flew from New York to Eindhoven, Germany, making a new mark. Russell N. Boardman and John Polansky set the record which still stands for Americans. It was 8,001 miles in 1933. Flying 5,341 miles from New York to Istanbul, Turkey, May 29 and 30, 1931. Two British airmen, Squadron Leader G. O. Squire and Pilot Officer G. E. Nicholls, took the honor from the Americans in February, 1933. Flying 5,341 miles from Cranwell, England, to Wallich Bay, South Africa. Next came the noted French fliers, Maurice Borel and Paul Godes, who set the record for the Russians today—5,637 miles in August, 1933. Flying from New York to Tokyo, Syria. The first Russian to fly over the North Pole to the United States, Valeriy Chkalov, George Barkovitch, Alexander Belokob, flew 5,536 miles from Moscow to Vancouver, Wash., June 26 and 27, 1936. Last July this same trio flew 5,536 miles from Moscow to Nikolai, eastern Siberia, but that was not recognized as a record because they were flying a direct line. To become official, such records must be approved by the internationale Federation Aeronautique, Paris.

NATIONAL NEWS FEDERAL RELIEF LOOMING

HEPBURN GIVES DELEGATES TIP ON PROSPECTS

Ontario Premier Discloses Letters From Minister Of Labor

TORONTO, July 14.—Additional relief grants are anticipated by Premier Mitchell Hepburn.

Speaking to a delegation of Ontario mayors who called on him yesterday, the premier stated he had received letters from Labor Minister Norman Rogers, which seemed to indicate such a step on the part of the federal authorities was being considered.

"This should occur on him yesterday," the premier stated he had received letters from Labor Minister Norman Rogers, which seemed to indicate such a step on the part of the federal authorities was being considered.

"It seems to me that suggestion is too wide," stated the premier.

"There is no time limit."

A visiting suggested the province take over the entire cost of hospitalization on the ground the burden to property owners had become unbearable.

APPROVE TAX MOVE

I think it would be better for us to increase the mill subsidy to the municipalities and leave the cost in your hands," the premier stated, adding that consideration would be given the suggestion.

The delegation expressed approval of the Ontario government's action in collection income tax but felt it should assume a greater portion of the cost of road services and all educational costs now charged to or paid by the municipalities.

Ottawa, Too, Says Cuts Are Coming

OTTAWA, July 14.—Further cuts in grants-in-aid of the provinces are expected for the remainder of the fiscal year ending March 31, 1938.

Parliament voted about \$150,000,000 in final grants to the provinces in the fiscal year ending March 31, 1937.

One-third less than the \$220,000,000 in the previous 12 months. In the first quarter ended June 30, however, the reductions were only 25 per cent in some of the provinces and even less than that in the west where conditions are less favorable.

DECISION EXPECTED

In order to keep within the total amount of the grants-in-aid, it is assumed, therefore, the reductions will be progressively greater as the fiscal year continues.

Disappointment among the provinces for the period from July 1 to September 30 is now under consideration by Labor Minister Norman Rogers and the provinces, it is learned at the labor department, and a decision is expected before the end of the month.

NAZI ARMY IS PEACE MENACE, AMES ASSERTS

CHARLOTTESVILLE, Va., July 14.—The Nazi army was asserted to be the greatest danger to international peace, according to a statement by Sir Herbert Brown Ames, former financial director of the League of Nations secretariat and a native of Montreal.

"This does not necessarily mean war, however," he told the Institute of Public Affairs, "but it is a danger for Hitler will not enter into a major conflict without the approval of the general military staff and these professional soldiers of fortune will not give their consent to a risky adventure unless they are convinced of ultimate success."
